

Implementing Web Application

Create IBM DB2 And Connect With Python

Date	10 November 2022
Team ID	PNT2022TMID44302
Project Name	CUSTOMER CARE REGISTRY

IBM DB2:

The screenshot displays the IBM Db2 on Cloud web interface. The browser tabs include IBM, ictacademy.skillsnetwork.site, Service Details - IBM Cloud, and IBM Db2 on Cloud. The address bar shows a URL for a specific database instance. The main interface has a navigation bar with options like Load Data, Load History, Tables (selected), Views, Indexes, Aliases, MQTs, Sequences, and Application objects. Below this, there's a search bar for schemas or tables and a Refresh button. The Schemas section shows a table with one entry: FWY33330, which is a User schema containing 2 tables. The Tables section shows a table with two entries: KSADJ and SK, both belonging to the FWY33330 schema. The bottom of the screen shows a Windows taskbar with the date and time as 23:50 on 17-11-2022.
